USER'S GUIDE

FCC Information

This device complies with Part 15 of the FCC rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation.

Federal Communications Commission (FCC) Statement

This Equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference

in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one

or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

**- Consult the dealer or an experienced radio/TV technician for help.**

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

**Tested to comply with FCC standard. FOR HOME OR OFFICE USE.**

Warning :

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. & This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter

Put in the battery

Using the tag

1. Getting Started

Please search for MIMU on Apple's App Store and install the application.

2. The first time to use the tag

Launch the MIMU application on your iOS device.

Press "add device" button.

Press the button on the device.

The device will be discovered by the application. You can press the right button to change its name.

The device is remembered and connected with your iOS device.

3. Stop Alarm

When your iOS device is separated from the tag for a certain distance and the link between them is lost, both your iOS device and the tag will start to generate alarm.

To stop the alarm on your iOS device, press the radar icon in the main page of the application.

To stop the alarm on the tag, press the button .

4. reconnect the tag to your iOS device

Press the button on the tag.

Open the application on your iOS device, select the item with the right name and slide the switch to the right to connect the tag.

Note: The tag will maintain connectable for 1 minute after it losses link. During that 1 minute, you don't have to press the button to connect. You can just slide the switch to connect.

5. delete a device

Open the application on your iOS device.

Swipe on the item you want to delete and confirm to remove the device from the list.

Specification

Bluetooth specification	Version 4.0 compliant
Bluetooth Profile supported	GATT/Proximity/Immediate Alert
Frequency Range	2.4GHz spectrum
Working Distance Range	10 meters (class 2)
Weight	129g
Operating time	Up to 6 months
Standby Time	Up to 12 months
Battery	CR2032 Lithium 3V
